

Frontie Resort Hotel – Poland Frontie™ | Literary Leisure & Responsible Gaming

□ Responsible Gaming Reminder At Frontie Resort Hotel, we believe that gaming should always be a conscious choice — a form of leisure and entertainment, never a financial strategy. We encourage our guests to approach all gaming experiences with awareness, moderation, and personal control.

□ Age Restriction Notice Access to all gaming and casino facilities is exclusively permitted to individuals aged 18 and above. We strictly enforce this policy to align with legal standards and uphold our commitment to safe, ethical hospitality.

FrontieBalance™ isn't just our philosophy — it's our promise. All forms of entertainment at Frontie are designed with purpose, clarity, and care for the individual. If gaming is no longer fun, it's time to stop.

□□ Gambling Rules and Legislation in Poland

1. Main Legal Framework: The Gambling Act of 19 November 2009 (Ustawa o grach hazardowych)

This is the core legislation regulating all forms of gambling in Poland. It outlines permitted gambling types, licensing processes, taxation, and responsible gaming rules.

Key provisions include:

All gambling activities are heavily regulated by the state. Land-based casinos must obtain a license from the Ministry of Finance. Only one casino per 250,000 residents is allowed in each voivodeship (province). A casino may only operate in places like hotels, conference centers, or resorts. All slot machines must be state-approved and monitored electronically. Online gambling is only legal for state-controlled operators (Totalizator Sportowy for games like online casinos or betting). Casinos cannot advertise or market games aggressively.

2. Supervisory Authority: Ministry of Finance (Ministerstwo Finansów)

The Ministry oversees all gambling activity and grants or revokes licenses. It also monitors compliance and taxation. Website: <https://www.gov.pl/web/finance>

3. Regulations on Responsible Gambling

Mandatory signage on the risks of gambling. Self-exclusion registers must be available at land-based casinos. No entry for individuals under 18 years. Operators are obliged to promote responsible gambling and may be penalized if they fail to do so.

4. Anti-Money Laundering (AML) Regulations

Casinos must follow AML protocols. They must verify player identities and report suspicious transactions. Operators are required to submit reports to Poland's General Inspector of Financial Information (GIIF).

5. Penalties for Non-Compliance

Operating a gambling business without a license is a criminal offense. Severe fines, license revocation, or imprisonment can apply. Marketing or facilitating unlicensed gambling can also lead to sanctions.

6. Recent Amendments

A 2017 amendment strengthened state control over slot machines. It also introduced a central monitoring system to track machine usage in real-time. Online poker, roulette, and other casino-style games are legal only if provided by the state monopoly.
